About Me

Full-stack developer in progress with solid React expertise and hands-on MERN stack project delivery. Focused on building scalable, efficient, and user-friendly web applications.

Skills

- HTML5
- CSS3
- JavaScript (ES6+)
- ReactJS
- Redux Toolkit
- TailwindCSS
- NodeJS
- ExpressJS
- MongoDB
- Mongoose
- OOP
- Data Structures

Projects

FinancyBuddy
MERN Stack – JWT – React Query – TailwindCSS
– Developed a full-stack personal finance management app with MERN stack.
– Implemented JWT authentication and authorization for secure user access.
– Created dashboards for tracking income, expenses, and savings with charts.
– Managed remote data fetching, caching, and synchronization using React Query for efficient and predictable workflows.
– Designed responsive UI with TailwindCSS ensuring smooth cross-device experience.
– View Project

Portfolio Website
HTML – CSS
– Designed and built a responsive personal portfolio to showcase projects.
– Focused on clean UI/UX and mobile-first accessibility.
– View Project

React Fast Pizza
React – Redux – TailwindCSS
– Built a pizza ordering app with dynamic menu and order workflow.
– Implemented cart actions and order tracking using Redux Toolkit.
– Integrated React Router for smooth client-side navigation.
– View Project

React Quiz App
ReactJS – ContextAPI
– Developed an interactive quiz app with scoring and countdown timer.
– Managed state using Context API and useReducer for clean workflows.
– Added high-score tracking and restart functionality for better UX.
– View Project

Experience

IIFA TECH — *Lahore, Pakistan*   July 2025 – Present
MERN Stack Development Intern
– Contributing to full-stack development of web applications using **React.js**, **Node.js**, **Express.js**, and **MongoDB**.
– Building reusable and responsive **UI components** while integrating RESTful APIs for dynamic functionality.
– Working in an **agile team environment**, practicing version control with Git/GitHub and writing clean, maintainable code.
– Implemented **authentication and authorization workflows** using JWT for secure user access.
– Optimized database queries and schema design in **MongoDB** to improve app performance and scalability.

Certifications

1. Certificates by **NAVTTC** and **IIFA TECH** for **MERN Stack Developer**   2025

Education

Ripahah International University, Lahore   Sept 2024 – Sept 2026
Associate Degree In Computer Science

Aspire Group of Colleges, Lahore   July 2023 – Sept 2025
Intermediate In Computer Science
