Professional Summary

Results-driven **MERN Stack Developer** seeking to contribute to **Spadasoft's 2026 Summer Internship**. Expert at building scalable real-time applications with Node.js and React. Highly proficient in implementing complex backend logic, including WebSockets and secure authentication, with a commitment to writing high-performance, maintainable code.

Technical Skills

Frontend: React.js, Redux Toolkit, Context API, Tailwind CSS, React Query, HTML5, CSS3

Backend: Node.js, Express.js, MongoDB, Mongoose, Socket.io, RESTful APIs, JWT

Tools: Git, GitHub, Vercel, Netlify, Render, Postman, Linux Terminal

Core: WebSockets, Real-time Data, OOP, Data Structures, Responsive UI/UX Design

Professional Experience

IIFA TECH — **Lahore, Pakistan**
MERN Stack Intern — *March 2026 – Present*

- Developing real-time full-stack features using the MERN ecosystem for enterprise-level web apps.
- Optimized JWT-based authentication workflows and role-based access control (RBAC).
- Streamlining backend API performance and database query efficiency for high-traffic services.

IIFA TECH — **Lahore, Pakistan**
MERN Stack Apprentice — *July 2025 – Oct 2025*

- Built modular React components and integrated REST APIs to power dynamic frontend features.
- Engineered MongoDB schemas and performed complex CRUD operations using Mongoose.
- Collaborated in Agile sprints, contributing to peer code reviews and version control management.

Key Projects

Nexus — **MERN Stack**
Ticket Management System — *GitHub*

- Engineered a real-time communication layer using **Socket.io** for live chatting and instant updates.
- Implemented a complex **thread-based commenting system** to handle hierarchical user discussions.
- Secured the ecosystem with JWT-based stateful sessions and robust password hashing (Bcrypt).

FinancyBuddy — **MERN Stack**
Full-Stack Finance Dashboard — *Live App*

- Developed a comprehensive **MERN-stack** dashboard for tracking income and savings with secure persistence.
- Optimized state synchronization and server-state caching using **React Query** for a high-speed UI.

React Fast Pizza — **Redux Toolkit**
Ordering & State Management — *Live App*

- Managed global cart state and complex order logic using Redux Toolkit and dynamic routing.

React Quiz — **Context API**
Interactive Quiz Platform — *Live App*

- Built a real-time scoring engine and timer logic using the useReducer pattern and Context API.

Education

Riphah International University — **Lahore**
Associate Degree in Computer Science (ADP) — *Sept 2025 – Sept 2027*

Aspire Group of Colleges — **Lahore**
Intermediate in Computer Science — *July 2023 – Sept 2025*

Certifications

2025: Certified MERN Stack Developer - NAVTTC & IIFA TECH
